Independent auditors' report

To the shareholders of
Al Mal Investment Company – KPSC
Kuwait

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Al Mal Investment Company – KPSC (the “Parent Company”) and its subsidiaries, (the “Group”), which comprise the consolidated statement of financial position as at 31 December 2017, and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2017, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs), as adopted for use by the State of Kuwait.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2b to the consolidated financial statements, which indicates that the Group incurred a loss of KD1,779,757 for the year ended 31 December 2017 and, as of that date, the Group’s current liabilities exceeded its current assets by KD1,488,837. As stated in note 2b, these events or conditions indicate that a material uncertainty exists that may cast significant doubt on the Group’s ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Emphasis of Matter

We draw attention to Note 13 to the consolidated financial statements which describes the legal dispute for recovery of the refundable development expenses and the related provision using the guidelines of the Central Bank of Kuwait. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below as the key audit matters.

Independent Auditors' Report to the shareholders of Al Mal Investment Company - KPSC (continued)

Valuation of unquoted investment securities

The Group invests in unquoted investment securities which are classified as investments at fair value through profit or loss and available for sale investments, and constitute a significant portion of the Group's total assets as at the reporting date.

The Group determines the fair value of the unquoted investment securities, which falls under level 3 fair value hierarchy as disclosed in Note 24.2 through application of valuation techniques that involve the exercise of management's judgments and the use of assumptions and estimates. Those valuations are based on a number of assumptions including pricing multiples available from comparable companies, discount rates and estimated maintainable dividends. Due to the significance of unquoted investment securities and the fact that valuations are highly dependent on assumptions and estimates, we identified this to be a key audit matter.

Our audit procedures included, among others, assessing the appropriateness of the valuation models used to fair value these investments and testing the reliability of data used as inputs to those models. We also ensured that the models and assumptions used in those valuations are consistent with prior years, and evaluated the Group's assessment whether objective evidence of impairment exists as of the reporting date. We further assessed the appropriateness of the disclosures made in relation to the unquoted investments of the Group in Note 24.2 to the consolidated financial statements.

Valuation of investment properties

The Group's investment properties comprise of land and buildings in Kuwait, GCC and Middle East countries. The total value of investment properties is significant to the Group's consolidated financial statements and are carried at fair value. Management determines the fair value of its investment properties on a periodic basis using external appraisers to support the valuations.

Investment properties are valued using market comparison approach which is based on the latest sale prices of properties within similar areas for certain investment properties, and income capitalization approach which is based on estimates and assumptions such as rental values, occupancy rates, discount rates, financial stability of tenants, market knowledge and historical transactions for certain other properties. Given the size and complexity of the valuation of investment properties and that the valuations are highly dependent on estimates and assumptions, we identified this as a key audit matter.

Our audit procedures included, among others, reviewing the valuation reports of the external independent appraisers and compared individually to the carrying value of the investment properties. We also considered the objectivity, independence, expertise of the external independent valuers as well as evaluating the accuracy of the data inputs used in their valuations. We further assessed the appropriateness of the disclosures made in relation to the sensitivity disclosures in Note 24.3 to the consolidated financial statements.

Other information included in the Group's 2017 annual report

Management is responsible for the other information. Other information consists of the information included in the Group's 2017 Annual Report, other than the consolidated financial statements and our auditors' report thereon. We obtained the report of the Parent Company's Board of Directors, prior to the date of our auditors' report and we expect to obtain the remaining sections of the Group's Annual Report after the date of our auditors' report.

Our opinion on the consolidated financial statements does not cover the other accompanying information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we have obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Auditors' Report to the shareholders of Al Mal Investment Company - KPSC (continued)

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, as adopted for use by the State of Kuwait, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Independent Auditors' Report to the shareholders of Al Mal Investment Company - KPSC (continued)

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements (continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Furthermore, in our opinion, proper books of account have been kept by the Parent Company and the consolidated financial statements, together with the contents of the report of the Parent Company's board of directors relating to these consolidated financial statements, are in accordance therewith. We further report that we obtained all the information and explanations that we required for the purpose of our audit and that the consolidated financial statements incorporate all information that is required by the Companies Law No. 1 of 2016 and its Executive Regulations, and by the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, that an inventory was duly carried out and that, to the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016 and its Executive Regulations, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, have occurred during the year ended 31 December 2017 that might have had a material effect on the business or financial position of the Parent Company.

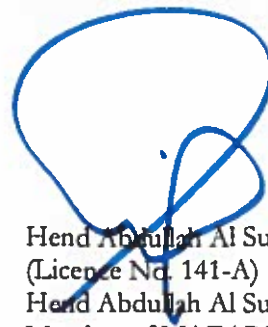

We further report that, during the course of our audit and to the best of our knowledge and belief, we have not become aware of any material violations of the provisions of Law 7 of 2010, as amended, relating to the Capital Markets Authority and its related regulations during the year ended 31 December 2017 that might have had a material effect on the business or financial position of the Parent Company.

We further report that, during the course of our audit, we have not become aware of any material violations of the provisions of Law No. 32 of 1968, as amended, concerning currency, the Central Bank of Kuwait and the organisation of the banking business, and its related regulations during the year ended 31 December 2017 that might have had a material effect on the business or financial position of the Parent Company.

Notes to the consolidated financial statements

1 Incorporation and activities

Al Mal Investment Company – KPSC, (“the Parent Company”), is a Kuwaiti Public Shareholding Company established on 2 January 1980 under the Commercial Companies Law No. 15 of 1960 and amendments thereto. The Parent Company is regulated by the Central Bank of Kuwait and the Capital Market Authority as an investment company and its shares are listed on the Kuwait Stock Exchange. The Parent Company and its subsidiaries (listed in note 7) are together referred to as “the Group”.

The principal objectives of the Parent Company are as follows:

- Investment in various economic sectors through participating in establishing specialised companies or purchasing securities or shares in those companies;
- Act as investment trustees and manage different investment portfolios for others; and
- Act as intermediary in borrowing operations in return for commission;

Further, the Parent Company has the right to participate and subscribe, in any way with other firms which operate in the same field or those which would assist in achieving its objectives in Kuwait and abroad and to purchase those firms or participate in their equity.

The address of the Parent Company’s registered office is Arabian Gulf Street, Ahmed Tower, Floor 22, PO Box 26308, Safat 13124, State of Kuwait.

The Board of Directors of the Parent Company authorised these consolidated financial statements for issue on 20 March 2018. The general assembly of the Parent Company’s shareholders has the power to amend these consolidated financial statements after issuance.

2 Basis of preparation

a) Basis of preparation

The consolidated financial statements are prepared under the historical cost convention modified to include the measurement of investments at fair value through profit or loss, available for sale instruments and investment properties.

The consolidated financial statements are presented in Kuwaiti Dinars (KD).

The Group has elected to present the “statement of comprehensive income” in two statements: the “statement of profit or loss” and a “statement of profit or loss and other comprehensive income”.

b) Fundamental accounting concept

As of 31 December 2017, the Group’s total current assets amounted KD7,934,566 and its total current liabilities amounted to KD9,423,403 (total current liabilities exceeded total current assets by KD1,488,837). However, the Group’s total assets exceeded its total liabilities by KD16,516,014. Current liabilities include KD4,667,695 due to related parties (note 17) and due to trade creditors and others include KD3,429,545 represent liabilities related to the project which is referred to in note 17 and the Group does not expect these liabilities to be called upon until the Group is able to recover its dues from the project. Further, the Parent Company’s management is also evaluating various strategies to improve the operating performance, financial position and adequacy of financial resources of the Group to enable to meet its future obligations on due dates. Therefore, the Parent Company’s management believes the Group has adequate resources to meet its short-term obligations and accordingly, these consolidated financial statements have been prepared under a going concern basis.

Had the going concern basis not been used, adjustments would be made relating to the recoverability of recorded asset amounts or to the amount of liabilities to reflect the fact that the Group may be required to realize its assets and extinguish its liabilities other than in the normal course of business, at amounts different from those stated in these consolidated financial statements.

Notes to the consolidated financial statements (continued)

3 Statement of compliance

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by International Accounting Standards Board (IASB) as modified by the State of Kuwait for financial services institutions regulated by Central Bank of Kuwait.

These regulations require adoption of all IFRSs except for the IAS 39 requirement for collective impairment provision, which has been replaced by the Central Bank of Kuwait requirement for a minimum general provision as described under the accounting policy for impairment of financial assets.

4 Changes in accounting policies

4.1 New and amended standards adopted by the Group

A number of new and revised standards are effective for annual periods beginning on or after 1 January 2017 which have been adopted by the Group. Information on these new standards is presented below:

<i>Standard or Interpretation</i>	<i>Effective for annual periods beginning</i>
IAS 7 Statement of Cash Flows- Amendments	1 January 2017
Annual Improvements to IFRSs 2014-2016 Cycle	1 January 2017

IAS 7 Statement of Cash Flows- Amendments

The Amendments are designed to improve the quality of information provided to users of financial statements about changes in an entity's debt and related cash flows (and noncash changes).

The Amendments:

- require an entity to provide disclosures that enable users to evaluate changes in liabilities arising from financing activities. An entity applies its judgement when determining the exact form and content of the disclosures needed to satisfy this requirement;
- suggest a number of specific disclosures that may be necessary in order to satisfy the above requirement, including:
 - changes in liabilities arising from financing activities caused by changes in financing cash flows, foreign exchange rates or fair values, or obtaining or losing control of subsidiaries or other businesses;
 - a reconciliation of the opening and closing balances of liabilities arising from financing activities in the statement of financial position including those changes identified immediately above.

The Group's liabilities arising from financing activities comprise of murabaha payables (note 18). A reconciliation between the opening and closing balances of these items is provided in note 18. Apart from these additional disclosures the application of the amendments did not have any impact on the consolidated financial statements of the Group.

Annual Improvements to IFRSs 2014-2016 Cycle

Amendments to IFRS 12 - Clarifies the scope of IFRS 12 by specifying that its disclosure requirements (except for those in IFRS 12. B10-B16) apply to an entity's interests in a subsidiary, joint venture or an associate irrespective of whether they are classified (or included in a disposal group that is classified) as held for sale or as discontinued operations in accordance with IFRS 5.

The application of the amendments did not have any impact on the consolidated financial statements of the Group as none of the Group entities are classified as, or included in disposal Group that is classified as held for sale.

Notes to the consolidated financial statements (continued)

4 Changes in accounting policies (continued)

4.2 IASB Standards issued but not yet effective

At the date of authorisation of these consolidated financial statements, certain new standards, amendments and interpretations to existing standards have been published by the IASB but are not yet effective, and have not been adopted early by the Group.

Management anticipates that all of the relevant pronouncements will be adopted in the Group's accounting policies for the first period beginning after the effective date of the pronouncements. Information on new standards, amendments and interpretations that are expected to be relevant to the Group's consolidated financial statements is provided below. Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Group's consolidated financial statements.

<i>Standard or Interpretation</i>	<i>Effective for annual periods beginning</i>
IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments	No stated date
IFRS 9 Financial Instruments: Classification and Measurement	1 January 2018
IFRS 15 Revenue from Contracts with Customers	1 January 2018
IFRS 16 Leases	1 January 2019
IAS 40 Investment Property - Amendments	1 January 2018
Annual Improvements to IFRSs 2014-2016 Cycle	1 January 2018
IFRIC 22 Foreign Currency Transactions and Advance Consideration	1 January 2018

IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments

The Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures (2011) clarify the treatment of the sale or contribution of assets from an investor to its associate or joint venture, as follows:

- require full recognition in the investor's financial statements of gains and losses arising on the sale or contribution of assets that constitute a business (as defined in IFRS 3 Business Combinations)
- require the partial recognition of gains and losses where the assets do not constitute a business, i.e. a gain or loss is recognised only to the extent of the unrelated investors' interests in that associate or joint venture.

These requirements apply regardless of the legal form of the transaction, e.g. whether the sale or contribution of assets occurs by an investor transferring shares in a subsidiary that holds the assets (resulting in loss of control of the subsidiary), or by the direct sale of the assets themselves.

IASB has postponed the effective date indefinitely until other projects are completed. However, early implementation is allowed. Management does not anticipate that the application of the amendments in the future will have a significant impact on the Group's consolidated financial statements.

IFRS 9 Financial Instruments

The IASB published IFRS 9 'Financial Instruments' (2014), representing the completion of its project to replace IAS 39 'Financial Instruments: Recognition and Measurement'. The new standard introduces extensive changes to IAS 39's guidance on the classification and measurement of financial assets and introduces a new 'expected credit loss' model for the impairment of financial assets. IFRS 9 also provides new guidance on the application of hedge accounting.

Notes to the consolidated financial statements (continued)

4 Changes in accounting policies (continued)

4.2 IASB Standards issued but not yet effective (continued)

IFRS 9 Financial Instruments (continued)

The main areas of expected impact are as follows:

- the classification and measurement of the financial assets based on the new criteria that considers the assets' contractual cash flows and the business model in which they are managed.
- an expected credit loss-based impairment will need to be recognised on the trade receivables and investments in debt-type assets currently classified as available for sale and held-to-maturity, unless classified as at fair value through profit or loss in accordance with the new criteria.
- it will no longer be possible to measure equity investments at cost less impairment and all such investments will instead be measured at fair value. Changes in fair value will be presented in profit or loss unless an irrevocable designation is made to present them in other comprehensive income.
- if the fair value option continues to be elected for certain financial liabilities, fair value movements will be presented in other comprehensive income to the extent those changes relate to own credit risk.

IFRS 9 contains three principal classification categories for financial assets: measured at amortised cost, Fair Value Through Other Comprehensive Income (FVTOCI) and Fair Value Through Profit or Loss (FVTPL). The standard eliminates the existing IAS 39 categories of held to maturity, loans and receivables and available for sale.

Further, the gains and losses on subsequent measurement of debt type financial instruments measured at FVTOCI will be recognised in equity and will be recycled to profit or loss on derecognition or reclassification.

However, gains or losses on subsequent measurement of equity type financial assets measured at FVTOCI will be recognised in equity and not recycled to profit or loss on derecognition. Dividend income on these assets will continue to be recognised in profit or loss.

The Company will apply IFRS 9 retrospectively and recognize any difference between the previous carrying amount and the carrying amount as at 1 January 2018 in opening retained earnings. The Company will not restate prior periods.

Based on the analysis of the Group's financial assets and liabilities as at 31 December 2017 and of the circumstances that existed at that date, management of the Group have determined the impact of implementation of IFRS 9 on the consolidated financial statements of the Group as follows:

Classification and measurement:

Management holds debt type financial assets to hold and collect the associated cash flows and, therefore, these are to continue to be accounted for at amortised cost.

As a result of new classifications, equity investments amounting to KD4,668,087 will be reclassified from Available for Sale to FVTPL and fair value reserve of KD420,197 related to these investments will be reclassified to retained earnings.

Notes to the consolidated financial statements (continued)

4 Changes in accounting policies (continued)

4.2 IASB Standards issued but not yet effective (continued)

IFRS 9 Financial Instruments (continued)

Loans as well as trade receivables are held to collect contractual cash flows and are expected to give rise to cash flows representing solely payments of principal and interest. Management analysed the contractual cash flow characteristics of those instruments and concluded that they meet the criteria for amortised cost measurement under IFRS 9. Therefore, reclassification for these instruments is not required.

There is no impact on the financial liabilities of the Group and will continue to be measured at amortised cost.

Impairment:

IFRS 9 requires the Group to record expected credit losses on all of its debt securities, instalment credit loans and trade receivables, due from related parties either on a 12-month or lifetime basis. Instalment credit debtors are subject to the minimum provisioning requirements of the Central Bank of Kuwait. Management believes that the impairment allowance for the instalment credit debtors under the CBK requirements exceed the requirements of IFRS 9.

The Group expects to apply simplified approach to impairment for accounts receivable and other assets as required or permitted under the standard.

However, the Group doesn't expect to recognise any significant impairment losses on its accounts receivable and due from related parties.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 replaced IAS 18 "Revenues", IAS 11 "Construction Contract" and several revenues – related Interpretations and provides a new control-based revenue recognition model using five-step approach to all contracts with customers.

The five steps in the model are as follows:

- Identify the contract with the customer
- Identify the performance obligations in the contract
- Determine the transaction price
- Allocate the transaction price to the performance obligations in the contracts
- Recognise revenue when (or as) the entity satisfies a performance obligation.

The standard includes important guidance, such as;

- Contracts involving the delivery of two or more goods or services – when to account separately for the individual performance obligations in a multiple element arrangement, how to allocate the transaction price, and when to combine contracts
- Timing – whether revenue is required to be recognized over time or at a single point in time
- Variable pricing and credit risk – addressing how to treat arrangements with variable or contingent (e.g. performance-based) pricing, and introducing an overall constraint on revenue
- Time value – when to adjust a contract price for a financing component
- Specific issues, including –
 - non-cash consideration and asset exchanges
 - contract costs
 - rights of return and other customer options
 - supplier repurchase options
 - warranties

Notes to the consolidated financial statements (continued)

4 Changes in accounting policies (continued)

4.2 IASB Standards issued but not yet effective (continued)

IFRS 15 Revenue from Contracts with Customers (continued)

- principal versus agent
- licencing
- breakage
- non-refundable upfront fees, and
- consignment and bill-and-hold arrangements.

Upon adoption of IFRS 15, the Group will apply the cumulative effect approach by retrospectively adjusting retained earnings on 1 January 2018. The Group will not restate prior periods.

Based on the current available information, management does not anticipate that the adoption of this standard will have a material impact on the Group's consolidated financial statements.

IFRS 16 Leases

IFRS 16 will replace IAS 17 and three related Interpretations. Leases will be recorded on the statement of financial position in the form of a right-of-use asset and a lease liability.

Management is yet to fully assess the impact of the Standard and therefore is unable to provide quantified information. However, in order to determine the impact, management is in the process of:

- performing a full review of all agreements to assess whether any additional contracts will now become a lease under IFRS 16's new definition
- deciding which transitional provision to adopt; either full retrospective application or partial retrospective application (which means comparatives do not need to be restated). The partial application method also provides optional relief from reassessing whether contracts in place are, or contain, a lease, as well as other reliefs. Deciding which of these practical expedients to adopt is important as they are one-off choices
- assessing their current disclosures for finance and operating leases as these are likely to form the basis of the amounts to be capitalised and become right-of-use assets
- determining which optional accounting simplifications apply to their lease portfolio and if they are going to use these exemptions
- assessing the additional disclosures that will be required.

IFRS 40 Investment Property - Amendments

The Amendments to IAS 40 clarifies that transfers to, or from, investment property are required when, and only when, there is a change in use of property supported by evidence. The amendments also re-characterise the list of circumstances appearing in paragraph 57(a)–(d) as a non-exhaustive list of examples of evidence that a change in use has occurred. The Board has also clarified that a change in management's intent, by itself, does not provide sufficient evidence that a change in use has occurred. Evidence of a change in use must be observable.

Management does not anticipate that the application of the amendments in the future will have a significant impact on the Group's consolidated financial statements.

Notes to the consolidated financial statements (continued)

4 Changes in accounting policies (continued)

4.2 IASB Standards issued but not yet effective (continued)

Annual Improvements to IFRSs 2014-2016 Cycle

Amendments to IAS 28 - Clarifies that a qualifying entity is able to choose between applying the equity method or measuring an investment in an associate or joint venture at fair value through profit or loss, separately for each associate or joint venture at initial recognition of the associate or joint venture. Amendment is effective for annual periods beginning on or after 1 January 2018.

Management does not anticipate that the application of the amendments in the future will have a significant impact on the Group's consolidated financial statements.

IFRIC 22 Foreign Currency Transactions and Advance Consideration

The Interpretations looks at what exchange rate to use for translation when payments are made or received in advance of the related asset, expense or income. A diversity was observed in practice in circumstances in which an entity recognises a non-monetary liability arising from advance consideration. The diversity resulted from the fact that some entities were recognising revenue using the spot exchange rate at the date of the receipt of the advance consideration while others were using the spot exchange rate at the date that revenue was recognized. IFRIC 22 addresses this issue by clarifying that the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration.

Management does not anticipate that the application of the amendments in the future will have a significant impact on the Group's consolidated financial statements.

5 Summary of significant accounting policies

The significant accounting policies and measurements bases adopted in the preparation of the consolidated financial statements are summarised below:

5.1 Basis of consolidation

The Group financial statements consolidate those of the Parent Company and all of its subsidiaries. Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group and they are deconsolidated from the date that control ceases. All subsidiaries have a reporting date of 31 December. The details of the significant subsidiaries are set out in Note 7 to the consolidated financial statements.

All transactions and balances between Group companies are eliminated on consolidation, including unrealised gains and losses on transactions between Group companies. Where unrealised losses on intra-group asset sales are reversed on consolidation, the underlying asset is also tested for impairment from a Group perspective. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

Profit or loss and other comprehensive income of subsidiaries acquired or disposed of during the year are recognised from the date the Group gains control, or until the date the Group ceases to control the subsidiary, as applicable.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.1 Basis of consolidation (continued)

Non-controlling interests, presented as part of equity, represent the portion of a subsidiary's profit or loss and net assets that is not held by the Group. The Group attributes total comprehensive income or loss of subsidiaries between the owners of the parent and the non-controlling interests based on their respective ownership interests. Losses within a subsidiary are attributed to the non-controlling interests even if that results in a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any non-controlling interests
- Derecognizes the cumulative translation differences, recorded in equity
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate as would be required if the Group has directly disposed of the related assets or liabilities.

5.2 Business combinations

The Group applies the acquisition method in accounting for business combinations. The consideration transferred by the Group to obtain control of a subsidiary is calculated as the sum of the acquisition-date fair values of assets transferred, liabilities incurred and the equity interests issued by the Group, which includes the fair value of any asset or liability arising from a contingent consideration arrangement. Acquisition costs are expensed as incurred. For each business combination, the acquirer measures the non-controlling interests in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

The Group recognises identifiable assets acquired and liabilities assumed in a business combination regardless of whether they have been previously recognised in the acquiree's financial statements prior to the acquisition. Assets acquired and liabilities assumed are generally measured at their acquisition-date fair values.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be asset or liability will be recognised in accordance with IAS 39 either in profit or loss or as change to other comprehensive income. If the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within other comprehensive income.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.2 Business combinations (continued)

Goodwill is stated after separate recognition of identifiable intangible assets. It is calculated as the excess of the sum of a) fair value of consideration transferred, b) the recognised amount of any non-controlling interest in the acquiree and c) acquisition-date fair value of any existing equity interest in the acquiree, over the acquisition-date fair values of identifiable net assets. If the fair values of identifiable net assets exceed the sum calculated above, the excess amount (i.e. gain on a bargain purchase) is recognised in profit or loss immediately.

5.3 Investment in associates

Associates are those entities over which the Group is able to exert significant influence but which are neither subsidiaries nor joint ventures. Investments in associates are initially recognised at cost and subsequently accounted for using the equity method. Any goodwill or fair value adjustment attributable to the Group's share in the associate is not recognised separately and is included in the amount recognised as investment in associates.

Under the equity method, the carrying amount of the investment in associates is increased or decreased to recognise the Group's share of the profit or loss and other comprehensive income of the associate, adjusted where necessary to ensure consistency with the accounting policies of the Group.

Unrealised gains and losses on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in those entities. Where unrealised losses are eliminated, the underlying asset is also tested for impairment.

The share of results of an associate is shown on the face of the consolidated statement of profit or loss. This is the profit attributable to equity holders of the associate and therefore is profit after tax and non-controlling interests in the subsidiaries of the associate.

The difference in reporting dates of the associates and the Group is not more than three months. Adjustments are made for the effects of significant transactions or events that occur between that date and the date of the Group's consolidated financial statements. The associate's accounting policies conform to those used by the Group for like transactions and events in similar circumstances.

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss on the Group's investment in its associate. The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in the 'share of results of an associate' in the consolidated statement of profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retaining investment at its fair value. Any differences between the carrying amount of the associate upon loss of significant influence and the fair value of the remaining investment and proceeds from disposal are recognised in the consolidated statement of profit or loss.

5.4 Segment reporting

The Group has three operating segments: Investment, real estate and finance segments. In identifying these operating segments, management generally follows the Group's service lines representing its main products and services. Each of these operating segments is managed separately as each requires different approaches and other resources.

For management purposes, the Group uses the same measurement policies as those used in its financial statements. In addition, assets or liabilities which are not directly attributable to the business activities of any operating segment are not allocated to a segment.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.5 Revenue

Revenue arises from rendering of services, investing activities and real estate activities. It is measured by reference to the fair value of consideration received or receivable.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when payment is made. The following specific recognition criteria should also be met before revenue is recognised;

5.5.1 Rendering of services

The Group earns rental income from operating leases of its investment properties. Rental income is recognised on a straight-line basis over the term of the lease.

The Group earns fees and commission income from diverse range of asset management, investment banking, custody and brokerage services provided to its customers. Fee income can be divided into the following two categories:

- *Fee income earned from services that are provided over a certain period of time*

Fees earned for the provision of services over a period of time are accrued over that period. These fees include commission income and asset management, custody and other management fees.

- *Fee income from providing transaction services*

Fees arising for rendering specific advisory services, brokerage services, equity and debt placement transactions for a third party or arising from negotiating or participating in the negotiation of a transaction for a third party are recognised on completion of the underlying transaction.

The Group also earns income from communication services (from Tarasul Telecom) and are recorded when services are rendered.

5.5.2 Interest income

Interest income are recognised on a time proportion basis using effective interest method.

5.5.3 Gain or loss from sale of investment properties

Gain or loss from sale of investment properties is recognised on completion of sale contract and after transferring the risk and rewards associated with the real estate to the purchaser and the amount of revenue can be reliably measured.

5.5.4 Dividend income

Dividend income, other than those from investments in associates, are recognised at the time the right to receive payment is established.

5.5.5 Rental income

Rental income is recognised on straight line basis over the term of lease. The Group earns rental income from operating leases of its investment properties.

5.6 Operating expenses

Operating expenses are recognised in profit or loss upon utilisation of the service or at the date of their origin.

5.7 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.8 Property and equipment

Property and equipment is stated at cost less accumulated depreciation and any impairment in value. The Group depreciates its property and equipment using the straight-line method at rates sufficient to write off the assets over their estimated useful economic lives.

5.9 Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation, and are accounted for using the fair value model.

Investment properties are initially measured at cost, including transaction costs. Subsequently, investment properties are re-measured at fair value on an individual basis based on valuations by independent real estate valuers and are included in the consolidated statement of financial position. Changes in fair value are taken to the consolidated statement of profit or loss.

Investment properties are de-recognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the consolidated statement of profit or loss in the year of retirement or disposal.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

5.10 Impairment testing of non-financial assets

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount, which is the higher of fair value less costs to sell and value-in-use. To determine the value-in-use, management estimates expected future cash flows from the asset or each cash-generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Group's latest approved budget, adjusted as necessary to exclude the effect of future reorganisations and assets enhancements. Discount factors are determined individually for each asset or cash-generating unit and reflect management's assessment of respective risk profiles, such as market and asset-specific risks factors.

Impairment losses for cash-generating units reduce first the carrying amount of any goodwill allocated to that cash-generating unit. Any remaining impairment loss is charged pro rata to the other assets in the cash-generating unit. With the exception of goodwill, all assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment charge is reversed if the cash-generating unit's recoverable amount exceeds its carrying amount.

5.11 Financial instruments

5.11.1 Recognition, initial measurement and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transactions costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities are described below.

All 'regular way' purchases and sales of financial assets are recognised on the trade date i.e. the date that the entity commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.11 Financial instruments (continued)

5.11.1 Recognition, initial measurement and derecognition (continued)

A financial asset (or, where applicable a part of financial asset or part of group of similar financial assets) is primarily derecognised when:

- rights to receive cash flows from the assets have expired;
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass through' arrangement; and either
 - (a) the Group has transferred substantially all the risks and rewards of the asset or
 - (b) the Group has neither transferred nor retained substantially all risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in consolidated statement of profit or loss.

5.11.2 Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets are classified into the following categories upon initial recognition:

- loans and receivables
- financial assets at fair value through profit or loss (FVTPL)
- available-for-sale (AFS) financial assets.

All financial assets except for those at FVTPL are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described below.

All significant income and expenses relating to financial assets that are recognised in profit or loss are presented, under separate headings in the consolidated statement of profit or loss.

• *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition, these are measured at amortised cost using the effective interest rate method, less provision for impairment. Discounting is omitted where the effect of discounting is immaterial.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.11 Financial instruments (continued)

5.11.2 Classification and subsequent measurement of financial assets (continued)

- *Loans and receivables (continued)*

Individually significant receivables are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty will default. Receivables that are not considered to be individually impaired are reviewed for impairment in groups, which are determined by reference to the industry and region of a counterparty and other shared credit risk characteristics. The impairment loss estimate is then based on recent historical counterparty default rates for each identified group.

In addition, in accordance with Central Bank of Kuwait instructions, a minimum general provision is made on all applicable credit facilities (net of certain categories of collateral) that are not provided for specifically.

The Group categorises loans and receivables into following categories:

- *Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

- *Receivables and other financial assets*

Trade receivable are stated at original invoice amount less allowance for any uncollectible amounts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off as incurred.

Loans and receivables which are not categorised under any of the above are classified as "other receivables/other assets".

- *Financial assets at FVTPL*

Classification of investments as financial assets at FVTPL depends on how management monitor the performance of these investments. Investments at FVTPL are either "held for trading" or "designated" as such on initial recognition.

The Group classifies investments as trading if they are acquired principally for the purpose of selling or are a part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit taking. When they are not classified as held for trading but have readily available reliable fair values and the changes in fair values are reported as part of statement of profit or loss in the management accounts, they are as designated at FVTPL upon initial recognition.

Assets in this category are measured at fair value with gains or losses recognised in profit or loss except for financial assets whose fair value cannot be reliably measured are carried at cost less impairment losses, if any. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

- *AFS financial assets*

AFS financial assets are non-derivative financial assets that are either designated to this category or do not qualify for inclusion in any of the other categories of financial assets.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.11 Financial instruments (continued)

5.11.2 Classification and subsequent measurement of financial assets (continued)

- *AFS financial assets (continued)*

Financial assets whose fair value cannot be reliably measured are carried at cost less impairment losses, if any. Impairment charges are recognised in consolidated statement of income. All other AFS financial assets are measured at fair value. Gains and losses are recognised in other comprehensive income and reported within the fair value reserve within equity, except for impairment losses, and foreign exchange differences on monetary assets, which are recognised in consolidated statement of profit or loss. When the asset is disposed of or is determined to be impaired, the cumulative gain or loss recognised in other comprehensive income is reclassified from the equity reserve to consolidated statement of profit or loss and presented as a reclassification adjustment within other comprehensive income.

The Group assesses at each reporting date whether there is objective evidence that a financial asset available for sale or a group of financial assets available for sale is impaired. In the case of equity investments classified as financial assets available for sale, objective evidence would include a significant or prolonged decline in the fair value of the equity investment below its cost. 'Significant' is evaluated against the original cost of the investment and 'prolonged' against the period in which the fair value has been below its original cost. Where there is evidence of impairment, the cumulative loss is removed from other comprehensive income and recognised in the consolidated statement of profit or loss.

Reversals of impairment losses are recognised in other comprehensive income, except for financial assets that are debt securities which are recognised in consolidated statement of profit or loss only if the reversal can be objectively related to an event occurring after the impairment loss was recognised.

5.11.3 Classification and subsequent measurement of financial liabilities

The Group's financial liabilities include borrowings, bonds issued and accounts payable and other liabilities; the subsequent measurement of financial liabilities depends on their classification.

The Group classifies all its financial liabilities as "financial liabilities other than at fair value through profit or loss (FVTPL).

- *Financial liabilities other than at fair value through profit or loss (FVTPL)*

These are stated at amortised cost using effective interest rate method. The Group categorises financial liabilities other than at FVTPL into the following categories:

- *Borrowings*

All borrowings are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in the consolidated statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate method (EIR) amortisation process.

- *Bonds issued*

Bonds are carried on the consolidated statement of financial position at their principal amount, net of directly related costs of issuing the bonds to the extent that such costs have not been amortised. These costs are amortised through the consolidated statement of profit or loss over the life of the bonds using the effective interest rate method.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.11 Financial instruments (continued)

5.11.3 Classification and subsequent measurement of financial liabilities (continued)

- *Financial liabilities other than at fair value through profit or loss (FVTPL) (continued)*

- *Accounts payables and other financial liabilities*

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the supplier or not, and classified as trade payables. Financial liabilities other than at FVTPL which are not categorised under any of the above are classified as “accounts payable and other liabilities”

All interest-related charges are included within finance costs or interest income.

5.11.4 Amortised cost of financial instruments

This is computed using the effective interest method less any allowance for impairment. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are an integral part of the effective interest rate.

5.11.5 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

5.11.6 Fair value of financial instruments

The fair value of financial instruments that are traded in active markets at each reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

For financial instruments not traded in an active market, the fair value is determined using appropriate valuation techniques. Such techniques may include using recent arm’s length market transactions; reference to the current fair value of another instrument that is substantially the same; a discounted cash flow analysis or other valuation models.

5.12 Equity, reserves and dividend payments

Share capital represents the nominal value of shares that have been issued and paid up.

Statutory and voluntary reserves comprise appropriations of current and prior period profits in accordance with the requirements of the commercial companies’ law and the Parent Company’s articles of association.

Other components of equity include the following:

- foreign currency translation reserve – comprises foreign currency translation differences arising from the translation of financial statements of the Group’s foreign entities into KD
- Cumulative changes in fair value reserve – comprises gains and losses relating to available for sale financial assets

Accumulated losses include all current and prior period losses. All transactions with owners of the parent are recorded separately within equity.

Dividend distributions payable to equity shareholders are included in other liabilities when the dividends have been approved in a general meeting.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.13 Treasury shares

Treasury shares consist of the Parent Company's own issued shares that have been reacquired by the Group and not yet reissued or cancelled. The treasury shares are accounted for using the cost method. Under this method, the weighted average cost of the shares reacquired is charged to a contra account in equity.

When the treasury shares are reissued, gains are credited to a separate account in equity, (the "gain on sale of treasury shares reserve"), which is not distributable. Any realised losses are charged to the same account to the extent of the credit balance on that account. Any excess losses are charged to retained earnings then to the voluntary reserve and statutory reserve. No cash dividends are paid on these shares. The issue of stock dividend shares increases the number of treasury shares proportionately and reduces the average cost per share without affecting the total cost of treasury shares.

5.14 Provisions, contingent assets and contingent liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic resources will be required from the Group and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. Provisions are discounted to their present values, where the time value of money is material.

Contingent assets are not recognised in the consolidated financial statements, but are disclosed when an inflow of economic benefits is probable.

Contingent liabilities are not recognised in the consolidated statement of financial position, but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

5.15 Foreign currency translation

5.15.1 Functional and presentation currency

The consolidated financial statements are presented in currency Kuwait Dinar (KD), which is also the functional currency of the Parent Company. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

5.15.2 Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency of the respective Group entity, using the exchange rates prevailing at the dates of the transactions (spot exchange rate). Foreign exchange gains and losses resulting from the settlement of such transactions and from the re-measurement of monetary items denominated in foreign currency at year-end exchange rates are recognised in profit or loss. Non-monetary items are not retranslated at year-end and are measured at historical cost (translated using the exchange rates at the transaction date), except for non-monetary items measured at fair value which are translated using the exchange rates at the date when fair value was determined. Translation difference on non-monetary asset classified as, "fair value through profit or loss" is reported as part of the fair value gain or loss in the consolidated statement of profit or loss and "available for sale" are reported as part of the cumulative change in fair value reserve within other comprehensive income.

Notes to the consolidated financial statements (continued)

5 Summary of significant accounting policies (continued)

5.15 Foreign currency translation (continued)

5.15.3 Foreign operations

In the Group's financial statements, all assets, liabilities and transactions of Group entities with a functional currency other than the KD are translated into KD upon consolidation. The functional currency of the entities in the Group has remained unchanged during the reporting period.

On consolidation, assets and liabilities have been translated into KD at the closing rate at the reporting date. Goodwill and fair value adjustments arising on the acquisition of a foreign entity have been treated as assets and liabilities of the foreign entity and translated into KD at the closing rate. Income and expenses have been translated into KD at the average rate over the reporting period. Exchange differences are charged/credited to other comprehensive income and recognised in the foreign currency translation reserve in equity. On disposal of a foreign operation, the related cumulative translation differences recognised in equity are reclassified to profit or loss and are recognised as part of the gain or loss on disposal.

5.16 End of service indemnity

The parent and its local subsidiaries provides end of service benefits to its employees. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of a minimum service period in accordance with relevant labour law and the employees' contracts. The expected costs of these benefits are accrued over the period of employment. This liability, which is unfunded, represents the amount payable to each employee as a result of termination on the reporting date.

With respect to its Kuwaiti national employees, the Group makes contributions to the Public Institution for Social Security calculated as a percentage of the employees' salaries. The Group's obligations are limited to these contributions, which are expensed when due.

5.17 Taxation

6.17.1 National Labour Support Tax (NLST)

NLST is calculated in accordance with Law No. 19 of 2000 and the Minister of Finance Resolutions No. 24 of 2006 at 2.5% of taxable profit of the Group. As per law, allowable deductions include, share of profits of listed associates and cash dividends from listed companies which are subjected to NLST.

5.17.2 Kuwait Foundation for the Advancement of Sciences (KFAS)

The contribution to KFAS is calculated at 1% of taxable profit of the Group in accordance with the modified calculation based on the Foundation's Board of Directors' resolution, which states that income from Kuwaiti shareholding associates and subsidiaries, and transfer to statutory reserve should be excluded from profit for the year when determining the contribution.

5.17.3 Zakat

Contribution to Zakat is calculated at 1% of the profit of the Group in accordance with the Ministry of Finance resolution No. 58/2007 effective from 10 December 2007.

For the year ended 31 December 2017 and 2016, the Parent Company has no liability towards NLST, KFAS and Zakat due to tax losses incurred. Under the NLST and Zakat regulations no carry forward of losses to the future years nor any carry back to prior years is permitted.

5.17.4 Fiduciary assets

Assets held in a trust or fiduciary capacity are not treated as assets of the Group and, accordingly, they are not included in these consolidated financial statements.

Notes to the consolidated financial statements (continued)

6 Significant management judgements and estimation uncertainty

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

6.1 Significant management judgments

In the process of applying the Group's accounting policies, management has made the following significant judgments, which have the most significant effect on the amounts recognised in the consolidated financial statements:

6.1.1 Classification of financial instruments

Judgements are made in the classification of financial instruments based on management's intention at acquisition. Such judgement determines whether it is subsequently measured at cost, amortised cost or at fair value and if the changes in fair value of instruments are reported in the statement of profit or loss or other comprehensive income.

The Group classifies financial assets as held for trading if they are acquired primarily for the purpose of short term profit making.

Classification of financial assets as fair value through profit or loss depends on how management monitors the performance of these financial assets. When they are not classified as held for trading but have readily available fair values and the changes in fair values are reported as part of profit or loss in the management accounts, they are classified as fair value through statement of profit or loss.

Classification of assets as loans and receivables depends on the nature of the asset. If the Group is unable to trade these financial assets due to inactive market and the intention is to receive fixed or determinable payments the financial asset is classified as loans and receivables.

All other financial assets are classified as available for sale.

6.1.2 Classification of real estate

Management decides on acquisition of a real estate whether it should be classified as trading, or investment property. Such judgement at acquisition determines whether these properties are subsequently measured at cost or net realisable value whichever is lower or fair value.

The Group classifies property as trading property if it is acquired principally for sale in the ordinary course of business.

The Group classifies property as investment property if it is acquired to generate rental income or for capital appreciation, or for undetermined future use.

6.1.3 Control assessment

When determining control, management considers whether the Group has the practical ability to direct the relevant activities of an investee on its own to generate returns for itself. The assessment of relevant activities and ability to use its power to affect variable return requires considerable judgement.

Notes to the consolidated financial statements (continued)

6 Significant management judgements and estimation uncertainty (continued)

6.2 Estimation uncertainty

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be substantially different.

6.2.1 Impairment of associates

After application of the equity method, the Group determines whether it is necessary to recognize any impairment loss on the Group's investment in its associated companies, at each reporting date based on existence of any objective evidence that the investment in the associate is impaired. If this is the case the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognizes the amount in the consolidated statement of profit or loss.

6.2.2 Impairment of available for sale equity investments

The Group treats available for sale equity investments as impaired when there has been a significant or prolonged decline in the fair value below its cost or where other objective evidence of impairment exists. The determination of what is "significant" or "prolonged" requires considerable judgment.

6.2.3 Impairment of loans and receivables

The group's management reviews periodically items classified as loans and receivables to assess whether a provision for impairment should be recorded in the consolidated statement of profit or loss. In particular, considerable judgement by management is required in the estimation of amount and timing of future cash flows when determining the level of provisions required. Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgement and uncertainty.

6.2.4 Fair value of financial instruments

Management apply valuation techniques to determine the fair value of financial instruments where active market quotes are not available. This requires management to develop estimates and assumptions based on market inputs, using observable data that market participants would use in pricing the instrument. Where such data is not observable, management uses its best estimate. Estimated fair values of financial instruments may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

6.2.5 Revaluation of investment properties

The Group carries its investment properties at fair value, with changes in fair value being recognised in the consolidated statement of profit or loss. The Group engaged independent valuation specialists to determine fair values and the valuers have used valuation techniques to arrive at these fair values. These estimated fair values of investment properties may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Notes to the consolidated financial statements (continued)

7 Subsidiary companies

7.1 Details of the Group's consolidated subsidiaries which are directly owned by the Parent Company at the end of the reporting period are as follows:

Name of the subsidiary	Country of registration & place of business	Proportion of ownership interest held by the Group		Nature of business
		2017	2016	
Tarasul Telecom Co. K.S.C (Closed)	Kuwait	96.69%	96.69%	Communication services
Diyar Al-Kuwait Real Estate Company – KSC (Closed)	Kuwait	60.25%	60.25%	Real estate development
Al Mal International for Project Management Co.- WLL	Kuwait	80%	80.00%	Real estate project management
Al Mal Qatari Holding Company – KSC (Closed) *	Kuwait	97.5%*	97.5%	Real estate project management
Safe Hands Holding Co. – BSC (Closed) (7.3)	Bahrain	-	60.72%	Health care
Saudi Al Mal Co. – WLL	Kingdom of Saudi Arabia	100%	100%	Investment activities
Quick Facilities Management – LLC	United Arab Emirates	100%	100%	Facilities management services
Takharoj Financial and Administrative Consulting Co. – KSC (Closed)	Kuwait	99%	-	Consulting services

* The remaining 2.5% of the above subsidiary is held by Parent Company through letter of assignments. Certain other subsidiaries shares are held through letter of assignments in favour of the Parent Company.

7.2 Subsidiaries with material non-controlling interests

The Group includes two subsidiaries, with material non-controlling interests (NCI):

Name	Proportion of ownership interests and voting rights held by the NCI		Loss allocated to NCI		Accumulated NCI	
	31 Dec. 2017	31 Dec. 2016	31 Dec. 2017	31 Dec. 2016	31 Dec. 2017	31 Dec. 2016
			KD	KD	KD	KD
Diyar Al-Kuwait Real Estate Company KSCC (DKRE)	39.75%	39.75%	(155,476)	(1,363)	(16,580)	133,122
First Al-Mal Real Estate Company KSCC (FMRE) [subsidiary of Al Mal Qatari Holding Company KSCC]	9.32%	9.32%	(1,211)	(2,736)	746,237	747,448
Individually immaterial subsidiaries with non-controlling interests			(1,458)	(7,588)	7,727	138,275
			(158,145)	(11,687)	737,384	1,018,845

Notes to the consolidated financial statements (continued)

7 Subsidiary companies (continued)

7.2 Subsidiaries with material non-controlling interests (continued)

Summarised financial information for the above subsidiaries, before intragroup eliminations, is set out below:

7.2.1 Diyar Al-Kuwait Real Estate Company - KSCC

	31 Dec. 2017 KD	31 Dec. 2016 KD
Non-current assets	12,931,028	13,478,312
Current assets	1,718,646	2,034,531
Total assets	14,649,674	15,512,843

Net cash flow (used in)/from operating activities	(2,907)	945
Net cash (outflow)/inflow	(2,907)	945

7.3 Liquidation of a subsidiary

During the year, the Group liquidated its subsidiary, Safe Hands Holding Co. – BSC (Closed), resulting in a net gain of KD111,489.

Notes to the consolidated financial statements (continued)

7 Subsidiary companies (continued)

7.3 Liquidation of a subsidiary (continued)

The details of the subsidiaries' assets and liabilities at the date of liquidation were as follows:

	2017 KD
Assets	
- Accounts receivable and other assets	129,090
Less: non-controlling interests and foreign currency translation reserve	
- Non-controlling interests	(129,090)
- Foreign currency translation reserve	(111,489)
Net assets disposed	(111,489)
Sales consideration	-
Gain on liquidation of subsidiary	(111,489)

8 Other income

	Year ended 31 Dec. 2017 KD	Year ended 31 Dec. 2016 KD
Gain on settlement of accounts payable *	448,458	-
Other income	2,612	3,605
	451,070	3,605

* During the year, one of the Group's subsidiaries settled certain related party balances included in "Trade payable and payable to contractors" (note 17) whereby the creditors waived liabilities amounting to KD448,458.

9 Net gain or loss on financial assets

Net gain/(loss) on financial assets, analysed by category, is as follows:

	Year ended 31 Dec. 2017 KD	Year ended 31 Dec. 2016 KD
Receivables		
- bank balances and short term deposits	26,352	27,586
- impairment of receivables and other assets	(83,861)	(46,506)
Assets at fair value through profit or loss:		
- designated on initial recognition	116,041	(497,016)
Available for sale investments:		
- recognised directly in other comprehensive income (including non-controlling share)	418,024	(379,580)
- recycled from other comprehensive income to consolidated statement of profit or loss		
• On impairment	-	(239,816)
• On disposal	(45,110)	27,680
- recognised directly in consolidated statement of profit or loss	64,564	566,671
	496,010	(540,981)
Net gain/(loss) recognised in the consolidated statement of profit or loss	77,986	(161,401)
Net gain/(loss) recognised in other comprehensive income	418,024	(379,580)
	496,010	(540,981)

Notes to the consolidated financial statements (continued)

10 Basic and diluted loss per share

Basic and diluted loss per share is calculated by dividing the loss for the year attributable to the owners of the Parent Company by the weighted average number of ordinary shares outstanding during the year as follows:

	Year ended 31 Dec. 2017	Year ended 31 Dec. 2016
Loss for the year attributable to the owners of the Parent Company (KD)	(1,621,612)	(18,286,765)
Weighted average number of ordinary shares outstanding during the year	310,245,910	310,245,910
Basic and diluted loss per share (Fils)	(5.23)	(58.94)

Basic and diluted loss per share reported for the year ended 31 December 2016 was Fils 27.31 before the retroactive adjustment relating to the capital reduction (note 20).

11 Cash and cash equivalents

	31 Dec. 2017 KD	31 Dec. 2016 KD
Cash and bank balances	2,463,277	2,326,415
Short term deposits	-	1,711,747
Cash balances with portfolio managers	25,660	201,889
Cash and cash equivalents as per consolidated statement of cash flow	2,488,937	4,240,051

Short term deposits carried an average effective interest rate of 0.75%.

Cash and bank balances include an amount of KD437,126 related to fiduciary accounts for which the Group recognised corresponding payables for the same amount (note 17 and 27). Subsequent to the reporting date, the Group transferred this amount to the bank account related to the fiduciary accounts.

12 Investments at fair value through profit or loss

	31 Dec. 2017 KD	31 Dec. 2016 KD
Designated on initial recognition:		
Local quoted shares	774,476	790,313
Mutual funds	149,688	157,761
Unquoted shares	564,159	518,334
	1,488,323	1,466,408

During the year, the Group sold certain local quoted shares for a total consideration of KD522,191 realising a net gain of KD53,625.

Notes to the consolidated financial statements (continued)

13 Accounts receivable and other assets

	31 Dec. 2017 KD	31 Dec. 2016 KD
Advance payment for purchase of investments	1,320,801	1,391,860
Refundable development expenses (note 13.1)	17,853,209	17,807,038
Due from related parties	282,842	326,675
Trade receivables	239,155	475,957
Accrued income & dividend receivables	95,184	39,702
Other assets	123,644	1,275,164
	19,914,835	21,316,396
Provision for refundable development expenses (note 13.1)	(16,040,318)	(15,968,001)
	3,874,517	5,348,395

- 13.1 Refundable development expenses represent development cost incurred for an economic city in the Kingdom of Saudi Arabia jointly with the Saudi authorities. The Parent Company was the main developer for this project.

During 2014, Knowledge Economic City (KEC) - Kingdom of Saudi Arabia (the relevant Saudi authority), announced through different media channels the termination of Al-Mal Investment's Contract (Developer of Prince Faisal Abdul Aziz Bin Musaed economic city – located in Hael) and assigning the development to Governmental parties. Management of the Parent Company contacted KEC to inquire about this action, since based on the development contract, all contractual and formal procedures must be completed to rectify any breach (if any), before terminating the development contract.

Further, during 2016, the Group filed a legal case against Knowledge Economic City to recover the refundable development expenses. The legal case was filed under the administrative court which is yet to pronounce its decision.

Upon consultation with the legal consultants and review of the development contract which stipulates that the total expenses incurred is re-imbursable, the Parent Company's management is confident that the Parent Company has the right to recover the above refundable development expenses in full.

However, management of the Parent Company decided to apply the guidelines of the Central Bank of Kuwait and accordingly, the Parent Company recognised a provision up to the extent of the refundable development expenses less certain direct dues related to the project (included under accounts payable and other liabilities as of the reporting date). Accordingly, an amount of KD15,968,001 was provided in previous years and KD72,317 in the current year.

The outcome of the above litigation is dependent on the future outcome of continuing legal and regulatory processes and consequently any provisions made to date are subject to inherent uncertainty.

Notes to the consolidated financial statements (continued)

14 Available for sale investments

	31 Dec. 2017 KD	31 Dec. 2016 KD
- Local unquoted	2,137,160	1,918,610
- Foreign unquoted	337,896	184,783
Investments in unquoted shares	2,475,056	2,103,393
Investments in private equity funds - foreign	552,976	272,738
Investments in direct equity funds - local	681,396	594,544
- Local unquoted	233,371	366,867
- Foreign unquoted	523,587	629,307
- Foreign quoted	201,701	316,393
Investments in portfolios managed by others	958,659	1,312,567
	4,668,087	4,283,242

- 14.1 Available for sale investments include investments of KD931,229 (31 December 2016: KD616,436), carried at cost less impairment, if any, due to the unpredictable nature of future cash flows and the unavailability of financial information to arrive at a reliable measure of fair value.
- 14.2 Information for investments in private equity funds and direct equity funds is limited to periodic financial reports provided by the investment managers. These investments are carried at net asset values reported by the investment managers. Due to the nature of these investments, the net asset values reported by the investment managers represent the best estimate of fair values available for these investments.
- 14.3 During the year, the Group disposed certain local and foreign investments with a carrying value of KD225,530 resulting into a net loss of KD58,281. Also, The Group exchanged foreign unquoted investment in a portfolio managed by other with a carrying value of KD100,479 for certain local quoted equity securities classified as “investment at fair value through profit or loss” resulting into a loss of KD40,441.
- 14.4 During the year, the Group recognised an impairment loss of KD Nil (2016: KD239,816), based on estimates made by management and the net asset values reported by investment managers.

15 Investment in associates

The movement of investment in associates during the year is as follows:

	31 Dec. 2017 KD	31 Dec. 2016 KD
Balance at 1 January	5,330,347	9,287,632
Share of results	(186,212)	(3,441,879)
Group's share of associates' change in other comprehensive income	(128,960)	(36,027)
Dividend received	(8,385)	(166,962)
Exchange differences arising on translation of foreign operations	(58,034)	(312,417)
Balance at 31 December	4,948,756	5,330,347

Notes to the consolidated financial statements (continued)

15 Investment in associates (continued)

15.1 Details of the Group's associates at the end of the reporting period are as follows:

	Country of registration and Principal place of business	Nature of business	Percentage ownership	
			31 Dec. 2017	31 Dec. 2016
Advance Zone General Trading WLL	Kuwait/Iraq	General trading	40%	40%
Falcon Aviation Group Limited	British Virgin Islands	Air cargo	20%	20%
Ikaros Real Estate Company – WLL	Kuwait	Real estate	25%	25%
MAC SA, Stockbrokerage Company	Tunisia	Brokerage	48%	48%
United Insurance Company	Syria	Insurance	18%	18%

The Group has recorded its share of results in Advance Zone General Trading based on 31 December 2017 financial statements and Falcon Aviation Group Limited based on 30 September 2017 accounts.

15.2 Summarised financial information in respect of each of the Group's material associates are set out below. The summarised financial information below represents the amounts presented in the financial statements of the associates (and not the Group's share of those amounts) adjusted for differences in accounting policies between the Group and the associates.

15.2.1 Advance Zone General Trading – WLL

	31 Dec. 2017 KD	31 Dec. 2016 KD
Non-current assets	3,188,694	3,778,329
Current assets	4,521,531	4,591,284
Current liabilities	(330,307)	(319,771)
Equity	7,379,918	8,049,842
Loss for the year*	(669,925)	(8,834,092)
Other comprehensive loss for the year	-	(90,068)
Total comprehensive loss for the year	(669,925)	(8,924,160)

A reconciliation of the above summarised financial information to the carrying amount of the investment in Advance Zone General Trading WLL is set out below:

	31 Dec. 2017 KD	31 Dec. 2016 KD
Net assets of the associate attributable to the shareholders of the Group	7,379,918	8,049,842
Proportion of the Group's ownership interest in the associate	40%	40%
Carrying value of the investment	2,951,967	3,219,937

* Advance Zone General Trading WLL is unquoted associate and it mainly holds 50% ownership in a company which is a telecom & technology provider, incorporated in British Virgin Islands and operating in Iraq. The loss for the current and previous year in the associate has mainly arisen due to a decline in value of its underlying investment which has been recognised by the associate based on an external valuation.

Notes to the consolidated financial statements (continued)

15 Investment in associates (continued)

15.2.2 Falcon Aviation Group Limited

	31 Dec. 2017 KD	31 Dec. 2016 KD
Current assets	4,620,953	931,744
Non-current liabilities	-	(7,865)
Current liabilities	(5,129,244)	(1,571,922)
Equity	(508,291)	(648,043)
Non-interest bearing shareholders' loans	7,543,750	7,718,693
Adjusted net assets of the associate attributable to the shareholders of the Group	7,035,459	7,070,650

During the year, the Group received dividends of KD Nil (2016: KD138,794) from the associate which have been reduced from the carrying value of the investment.

	31 Dec. 2017 KD	31 Dec. 2016 KD
Revenue	29,010	1,709,113
Profit for the year	721,155	305,650
Other comprehensive income for the year	-	-
Total comprehensive income for the year	721,155	305,650

A reconciliation of the above summarised financial information to the carrying amount of the investment in Falcon Aviation Group Limited is set out below:

	31 Dec. 2017 KD	31 Dec. 2016 KD
Net assets of the associate attributable to the shareholders of the Group	7,035,459	7,070,650
Proportion of the Group's ownership interest in the associate	20%	20%
Carrying value of the investment	1,407,092	1,414,130

Falcon Aviation Group limited is unquoted associate.

15.3 Aggregate information of associates that are not individually material to the Group:

	31 Dec. 2017 KD	31 Dec. 2016 KD
The Group's share of (loss)/profit for the year	(62,473)	152,888
The Group's share of total comprehensive (loss)/income for the year	(62,473)	152,888
Aggregate carrying amount of the Group's interest in these associates	589,697	696,280

Notes to the consolidated financial statements (continued)

16 Investment properties

	31 Dec. 2017 KD	31 Dec. 2016 KD
Investment properties	12,185,134	8,667,364
Land and properties under development	-	3,827,030
	12,185,134	12,494,394

The movement for investment properties is as follows:

	31 Dec. 2017 KD	31 Dec. 2016 KD
Balance as of 1 January	12,494,394	12,469,049
Additions during the year	77,254	1,090,931
Disposals during the year	-	(28,869)
Changes in fair value	(402,768)	(68,184)
Foreign currency translation adjustment arising on consolidation	16,254	(968,533)
Balance as of 31 December	12,185,134	12,494,394

- 16.1 Investment properties of KD7,250,000 (2016: KD7,477,030) of a subsidiary are pledged against murabaha payables of the same subsidiary.
- 16.2 Investment properties include a foreign investment property of KD1,075,746 (2016: KD1,033,081) of a foreign subsidiary is held based on a registered letter of assignment provided by the original owners of the property.
- 16.3 The details of fair valuation of investment properties are disclosed in note 24.3.
- 16.4 The above properties are located in GCC and other Middle Eastern countries.

17 Accounts payable and other liabilities

	31 Dec. 2017 KD	31 Dec. 2016 KD
Trade payables and payables to contractors (note 17.1)	3,429,545	5,322,845
Due to related parties (note 23)	4,667,695	4,882,523
Accrued expenses	108,447	97,614
Accrued finance costs	60,465	68,992
Fiduciary accounts payable (note 11)	437,126	-
Provision for legal case (note 17.2)	270,000	-
Other credit balances	34,296	62,560
	9,007,574	10,434,534

- 17.1 Trade payables and due to contractors include KD2,654,838 related to the project which is referred to in note 13.1 and management does not expect this liability to be paid until the Group is able to recover its dues from the project.
- 17.2 Provision for legal case represent an amount due to a bondholder who had filed a legal case against the Parent Company. During the year, the court issued its verdict in favour of the bondholder (note 19).

Notes to the consolidated financial statements (continued)

18 Murabaha payables

Murabaha payables are repayable in annual instalments of KD600,000 each (representing the principal and the related profit beginning 2016) with a final payment of the remaining balance on 31 October 2019.

Investment properties of a subsidiary are pledged against these murabaha payables (note 16).

The effective cost rate of the murabaha payables is 5.75% (2016: 5.25%).

The changes in the Group's liabilities arising from financing activities can be classified as follows:

	Murabaha payables KD	Total KD
Balance at 1 January 2017	3,606,871	3,606,871
Cash flows:		
• Repayment	(403,895)	(403,895)
31 December 2017	3,202,976	3,202,976
Balance at 1 January 2016	4,039,496	4,039,496
Cash flows:		
• Repayment	(432,625)	(432,625)
31 December 2016	3,606,871	3,606,871

19 Bonds

During previous years, the Group reached settlement agreements with bondholders for outstanding bonds amounting to KD11,088,000. Consequent to these agreements, a foreign subsidiary of the Group purchased approximately 92.5% of the bonds issued.

The bondholders owning the remaining bonds with a carrying value of KD900,000 filed a legal case against the Parent Company to recover the full face value of the bond. However, the Group's management is confident that the legal case has no basis and that the case will be decided in favour of the Parent Company.

On 10 November 2016, the bondholders agreed to extend the due date of the bonds issued to 18 November 2019 and to reduce the interest on fixed interest bearing bonds to 0.5% fixed interest rate and floating bonds to bear floating interest rate at maximum 0.5% per annum.

During the year, the Parent Company lost a court case against an old bondholder of KD900,000 who had agreed to the settlement agreement earlier but later refused to take ownership of the shares offered in return of the debt. The verdict was issued by the court of appeal on 13 July 2017 and it granted the bondholder the right to the price used for debt to equity swap amounting to KD270,000 for which the Group recognized a provision of KD270,000 against this liability (note 17.2). The 2,700,000 shares previously issued to this bondholder (with a par value of KD270,000) will be transferred back to the Parent Company.

20 Share capital

The authorized, issued and fully paid share capital is as follows,

	31 Dec 2017		31 December 2016	
	Authorised	Paid-up in Cash	Authorised	Paid-up in Cash
Shares of 100 Fils each	310,245,910	310,245,910	669,543,510	669,543,510

All shares are in cash.

Notes to the consolidated financial statements (continued)

20 Share capital (continued)

The Parent Company's shareholders at the Extraordinary General Meeting held on 18 July 2017 approved the board of directors' proposal to set-off accumulated losses of KD35,929,760 against the share capital of the Parent Company, which was approved by the relevant authorities and recorded in the commercial register of the Ministry of Commerce on 8 August 2017.

21 Reserves

Statutory reserve

In accordance with the Companies Law and the Parent Company's articles of association, 10% of the profit attributable to shareholders of the Parent Company before contribution to KFAS, Zakat provision, NLST provision and directors' remuneration is to be transferred to statutory reserve. No transfer is required in a year when losses are made or where cumulative losses exist. The Parent Company may resolve to discontinue such annual transfer when the reserve equals or exceeds 50% of the paid-up share capital.

Distribution of the statutory reserve is limited to the amount required to enable the payment of a dividend of 5% of paid-up share capital to be made in years when retained earnings are not sufficient for the payment of a dividend of that amount.

Voluntary reserve

In accordance with the Parent Company's articles of association, 10% of the profit attributable to shareholders of the Parent Company before contribution to KFAS, Zakat provision, NLST provision and directors' remuneration is to be transferred to voluntary reserve. The Parent Company may resolve to discontinue such transfers by a resolution of the Parent Company's Board of Directors. There are no restrictions on distribution of voluntary reserve. No transfer is required in a year when losses are made or when cumulative losses exist.

22 Segmental information

The Group activities are concentrated in three main segments: real estate, investment and financing. The segments' results are reported to senior management in the Group. In addition, the segments results, assets and liabilities are reported based on the geographic locations in which the Group operates.

The following is the segments information, which conforms with the internal reporting presented to management:

	31 Dec. 2017				
	Real estate KD	Investments KD	Financing KD	Unallocated KD	Total KD
Total income	238,878	241,297	26,352	389,964	896,491

23 Related party transactions

Related parties represent associates, directors and key management personnel of the Group, and other related parties such as major shareholders and companies in which directors and key management personnel of the Group are principal owners or over which they are able to exercise significant influence or joint control.

Significant transactions and balances with related parties included in the consolidated financial statements are as follows:

Notes to the consolidated financial statements (continued)

23 Related party transactions (continued)

	31 Dec. 2017 KD	31 Dec. 2016 KD
Balances in the consolidated statement of financial position:		
Due from related parties (note 13)	282,842	326,675
Due to related parties (note 17)*	4,667,695	4,882,523
Due to related parties included in trade payables and payable to contractors (note 17)	-	1,443,299

* Due to related parties includes interest free advances totalling KD4,282,890 (31 December 2016: KD4,282,625) from an associate (KD1,532,890) and another related party (KD2,750,000) with no specific repayment terms and management does not anticipate repayment during the next twelve months.

	Year ended 31 Dec. 2017 KD	Year ended 31 Dec. 2016 KD
Transactions included in the consolidated statement of profit or loss:		
Management fees and other income	582,586	102,098
Key management compensation:		
Short term benefits	414,708	280,115
Employees' end of service indemnity	60,520	31,874

Pricing policies and the terms of these transactions are approved by the Group's management.

Transactions with related parties are subject to approval of the shareholders at the general assembly meeting.

24 Fair value measurement

24.1 Fair value hierarchy

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Financial assets and liabilities measured at fair value in the consolidated statement of financial position are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Notes to the consolidated financial statements (continued)

24 Fair value measurement (continued)

24.2 Fair value measurement of financial instruments

The carrying amounts of the Group's financial assets and liabilities as stated in the consolidated statement of financial position are categorized as follows:

	31 Dec. 2017 KD	31 Dec. 2016 KD
Financial assets:		
Loans and receivables at amortised cost:		
• Cash and cash equivalents	2,488,937	4,240,051
• Accounts receivable and other assets	3,874,517	5,348,395
• Financing receivables	183,811	-
	6,547,265	9,588,446
Held to maturity investments at amortised cost:		
• Investment in bonds	100,000	100,000
	100,000	100,000
Investments at fair value through profit or loss:		
• At fair value	1,488,323	1,466,408
	1,488,323	1,466,408
Available for sale investments:		
• At fair value	3,736,858	3,666,806
• At cost / cost less impairment	931,229	616,436
	4,668,087	4,283,242
Total financial assets	12,803,675	15,438,096
Financial liabilities:		
Financial liabilities at amortised cost:		
• Accounts payable and other liabilities	9,007,574	10,434,534
• Murabaha payables	3,202,976	3,606,871
• Bonds	900,000	900,000
Total financial liabilities	13,110,550	14,941,405

Investments (excluding certain available for sale investments which are carried at cost/cost less impairment for reasons specified in note 14.1 to the consolidated financial statements) are carried at fair value and measurement details are disclosed in note 24.2. In the opinion of the Group's management, the carrying amounts of all other financial assets and liabilities which are at amortised costs are considered a reasonable approximation of their fair values. The Group also measures non-financial assets such as investment properties at fair value at each annual reporting date (refer note 24.3)

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

The financial assets and liabilities measured at fair value on a recurring basis in the statement of consolidated financial position are grouped into the fair value hierarchy as follows:

Notes to the consolidated financial statements (continued)

24 Fair value measurement (continued)

There have been no significant transfers between levels 1 and 2 during the reporting period.

Measurement at fair value

The Group's finance team performs valuations of financial items for financial reporting purposes, including Level 3 fair values, in consultation with third party valuation specialists for complex valuations, where required. Valuation techniques are selected based on the characteristics of each instrument, with the overall objective of maximising the use of market-based information.

The methods and valuation techniques used for the purpose of measuring fair value, which are unchanged compared to the previous reporting period, are as follows:

Notes to the consolidated financial statements (continued)

24 Fair value measurement (continued)

24.2 Fair value measurement of financial instruments (continued)

a) Quoted shares

All quoted equity securities are publicly traded in stock exchanges. Fair values have been determined by reference to their quoted bid prices at the reporting date.

b) Mutual funds

The underlying investments of these funds comprise of quoted securities and the fair value of the investment as of the reporting date is determined based on net asset values reported by the fund manager.

c) Unquoted shares

These represent holdings in local and foreign unlisted securities which are measured at fair value. Fair value is estimated based on the net asset value reported in the latest available financial information, discounted cash flow model or other valuation technique which includes some assumptions that are not supportable by observable market prices or rates.

d) Private and direct equity funds

The underlying investments in these private and direct equity funds mainly represent local and foreign quoted and unquoted securities. Information for these investments is limited to periodic financial reports provided by the investment managers. These investments are carried at net asset values reported by the investment managers. Due to the nature of these investments, the net asset values reported by the investment managers represent the best estimate of fair values available for these investments.

e) Portfolios managed by others

The underlying investments in managed portfolios represent quoted and unquoted securities. They are valued based on latest fund manager's reports.

The following table provides information about the sensitivity of the fair values measurement to changes in the most significant unobservable inputs:

Financial asset	Valuation technique	Significant unobservable input	Range (weighted average)	Sensitivity of the fair value measurement to the input
Unquoted shares	NAV multiples	Net asset value reported	N/A	Higher the Net asset value, higher the fair value
		Discount for lack of marketability and Company specific risks	20% - 80%	Higher the discount rate, lower the value
Private equity and direct equity funds	NAV reported by investment manager	Fair market value/carrying value of the underlying assets	N/A	Higher the FMV/CV of the assets, higher the value
Other managed portfolios	NAV reported by investment manager	Fair market value/carrying value of the underlying assets	N/A	Higher the FMV/CV of the assets, higher the value

The impact on profit or loss and other comprehensive income would be immaterial if the relevant risk variable used to fair value the level 3 investments were changed by 5%.

Discount for lack of marketability & company specific risks represents the amounts that the Group has determined that market participants would take into account when pricing the investments.

Notes to the consolidated financial statements (continued)

24 Fair value measurement (continued)

24.2 Fair value measurement of financial instruments (continued)

In case of AFS assets, the impairment charge in the profit or loss would depend on whether the decline is significant or prolonged. An increase in the fair value would only impact equity (through other comprehensive income) and, would not have an effect on profit or loss.

Level 3 Fair value measurements

The Group measurement of financial assets and liabilities classified in level 3 uses valuation techniques inputs that are not based on observable market data. The financial instruments within this level can be reconciled from beginning to ending balances as follows:

	2017 KD	2016 KD
As at 1 January	3,868,747	5,648,588
Change in fair value	439,177	(607,790)
Net disposal/redemption	(259,096)	(160,693)
Transferred to level 1 (due to listing)	-	(314,483)
Additions during the year	50,488	-
Net movement between cost and level 3	-	(457,059)
Impairment of level 3 investments	-	(239,816)
As at 31 December	4,099,316	3,868,747
Total amount included in the consolidated statement of profit or loss for unrealised gain on level 3 instruments under investments at fair value through profit or loss	45,824	(373,753)

24.3 Fair value measurement of non-financial assets

The following table shows the levels within the hierarchy of non-financial assets measured at fair value on a recurring basis at 31 December 2017 and 31 December 2016:

	Level 1 KD	Level 2 KD	Level 3 KD	Total KD
31 December 2017				
Investment property				
- Buildings in Kuwait	-	-	9,000,000	9,000,000
- Lands and buildings under development in Kuwait	-	-	-	-
- Building in UAE	-	406,427	-	406,427
- Building in Bahrain	-	1,702,961	-	1,702,961
- Land in Egypt	-	-	1,075,746	1,075,746
	-	2,109,388	10,075,746	12,185,134
31 December 2016				
Investment property				
- Buildings in Kuwait	-	-	5,450,000	5,450,000
- Lands and buildings under development in Kuwait	-	-	3,827,030	3,827,030
- Building in UAE	-	436,474	-	436,474
- Building in Bahrain	-	1,747,809	-	1,747,809
- Land in Egypt	-	-	1,033,081	1,033,081
	-	2,184,283	10,310,111	12,494,394

The fair values of all investment properties have been determined based on valuations obtained from two independent valuers for each investment property who are specialised in valuing these types of investment properties. The significant inputs and assumptions are developed in close consultation with management. As of 31 December 2017 and 2016, for the valuation purpose, the Group has selected the lower value of the two valuations obtained for each investment property.

Notes to the consolidated financial statements (continued)

24 Fair value measurement (continued)

24.3 Fair value measurement of non-financial assets (continued)

Buildings in Kuwait

The buildings in Kuwait represent buildings categorised as “Investment Buildings”. The lands and buildings under development in Kuwait represent lands categorised as “Investment Lands and buildings under development”. The lower of the two fair values was the fair value provided by a local bank who has valued the investment properties using either rent capitalisation approach or market comparison approach. The market approach reflects observed prices for recent market transactions for similar properties and incorporates adjustments for factors specific to the land in question, including plot size, location, encumbrances, current use and construction costs.

The rent capitalisation approach capitalises the monthly estimated rental income stream, net of projected operating costs using a discount rate derived from the market yields. When actual rent differs materially from estimated rents, adjustments have been made to the estimated rental value. When using the estimated rental stream approach, adjustments to actual rental are incorporated for factors such as current occupancy levels, the terms of in-place leases, expectations for rentals from future leases and unlicensed rented areas.

Building in UAE

The building in UAE represents four office suites “Commercial units”. The lower of the two fair values was the fair value provided by an independent valuer using a market approach that reflects observed prices for recent market transactions for similar properties without any significant adjustments being made to the market observable data.

Building in Bahrain

The building in Bahrain represents a building categorised as “Investment Buildings”. The lower of the two fair values was the fair value provided by an independent valuer using a market approach that reflects observed prices for recent market transactions for similar properties without any significant adjustments being made to the market observable data.

Land in Egypt

The land in Egypt represents a land categorised as “Investment land”. The lower of the two fair values was the fair value provided by an independent valuer who has valued the investment properties using a market approach that reflects observed prices for recent market transactions for similar properties and incorporates adjustments for factors specific to the land in question, including plot size, location, encumbrances and current use.

Further information regarding the level 3 fair value measurements is set out in the table below:

Description	Valuation technique	Significant unobservable inputs	Range of unobservable inputs	Relationship of unobservable inputs to fair value
Buildings in Kuwait	Rent capitalization	Monthly economic rental value	KD10,710 to KD18,350 (2016: 18,785 to KD24,250)	Fair value increases if economic rental value increases, and vice versa.
		Yield rate	7.34% to 7.86% (2016: 7% to 11.88%)	The higher the yield rate, the higher the value
	Market comparison approach	Estimated market price (per m ²)	KD2,311	Higher the price per square meter, higher the fair value
Land in Egypt	Market comparison approach	Estimated market price (per m ²)	KD4.65 to KD5.07 (2016: KD4.47 to KD4.87)	Higher the price per square meter, higher the fair value

Notes to the consolidated financial statements (continued)

24 Fair value measurement (continued)

24.3 Fair value measurement of non-financial assets (continued)

Level 3 Fair value measurements

The Group measurement of investment properties classified in level 3 uses valuation techniques inputs that are not based on observable market data. The investment properties within this level can be reconciled from beginning to ending balances as follows:

	31 Dec. 2017 KD	31 Dec. 2016 KD
Opening balance	10,310,111	10,503,966
Additions	77,254	822,599
Disposal	-	(40,576)
Changes in fair value recognised in profit or loss	(350,250)	(16,358)
Exchange differences recognised in other comprehensive income	38,631	(959,520)
Closing balance	10,075,746	10,310,111

25 Risk management objectives and policies

The Group's principal financial liabilities comprise, murabaha payables, bonds issued and accounts payable and other liabilities. The main purpose of these financial liabilities is to raise finance for Group's operations. The Group has various financial assets such as accounts receivable and other assets, cash and bank balances, short term deposits, finance receivables and investment securities which arise directly from operations.

The Group's activities expose it to variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk.

The Parent Company's Board of Directors sets out policies for reducing the risks discussed below.

The Group does not use derivative financial instruments.

The most significant financial risks to which the Group is exposed to are described below.

25.1 Market risk

a) Foreign currency risk

Foreign currency risk is the risk that the fair values or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Group mainly operates in the Middle Eastern countries and is exposed to foreign currency risk arising from various foreign currency exposures, primarily with respect to US Dollar and Qatari Riyals. The Group's balance sheet can be significantly affected by the movement in these currencies. To mitigate the Group's exposure to foreign currency risk, non-Kuwaiti Dinar cash flows are monitored.

Generally, the Group's risk management procedures distinguish short-term foreign currency cash flows (due within twelve months) from longer-term cash flows. Foreign currency risk is managed by the Group by diversifying its investments geographically and monitoring the foreign currency movements and the Groups open positions on a regular basis.

The Group's significant net exposure to foreign currency denominated monetary assets less monetary liabilities at the reporting date, translated into Kuwaiti Dinars at the closing rates are as follows:

Notes to the consolidated financial statements (continued)

25 Risk management objectives and policies (continued)

25.1 Market risk (continued)

a) Foreign currency risk (continued)

	31 Dec. 2017 Equivalent KD	31 Dec. 2016 Equivalent KD
US Dollars	1,111,155	1,414,939
Qatari Riyal	120,186	2,133,655

If the Kuwaiti Dinar had strengthened against the foreign currencies by 5% (2016: 5%), then this would have the following impact on the loss for the year. There is no impact on the Group's equity.

	<u>Loss/profit for the year</u>	
	31 Dec. 2017 KD	31 Dec. 2016 KD
US Dollars	(55,558)	(70,747)
Qatari Riyal	(6,009)	(106,683)
Total loss	(61,567)	(177,430)

If the Kuwaiti Dinar had weakened against the foreign currencies by 5% (2016: 5%), then there would be an opposite impact on the loss for the year, and the negative balances shown above would be positive and positive balances will be negative.

Exposures to foreign exchange rates vary during the year depending on the volume and nature of the transactions. Nonetheless, the analysis above is considered to be representative of the group's exposure to the foreign currency risk.

b) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future profitability or the fair values of financial instruments. The Group is exposed to interest rate risk with respect to its short term deposits and bonds payable which are both at fixed rate and floating interest rates. The risk is managed by the Group by maintaining an appropriate mix between fixed and floating rate short term deposits and borrowings.

Positions are monitored regularly to ensure positions are maintained within established limits.

The following table illustrates the sensitivity of the loss for the year to reasonable possible change of interest rate of +1% and -1% basis points with effect from the beginning of the year. The calculation is based on the Group's financial instruments held at each reporting date. All other variables are held constant. There is no impact on Group's equity.

	<u>Increase in interest rates</u>		<u>Decrease in interest rates</u>	
	31 Dec. 2017 KD	31 Dec. 2016 KD	31 Dec. 2017 KD	31 Dec. 2016 KD
Increase/(decrease) in loss for the year	9,000	(8,117)	(9,000)	8,117

Notes to the consolidated financial statements (continued)

25 Risk management objectives and policies (continued)

25.1 Market risk (continued)

c) Price risk

This is a risk that the value of financial instruments will fluctuate as a result of changes in market prices, whether these changes are caused by factors specific to individual instrument or its issuer or factors affecting all instruments, traded in the market. The Group is exposed to equity price risk with respect to its listed equity investments, which are primarily located in Kuwait. Equity investments are classified as available for sale investments and investments at fair value through profit or loss.

The equity price risk sensitivity is determined on the exposure to equity price risks at the reporting date. If equity prices had been 10% higher, the effect on the profit and other comprehensive income for the years ended 31 December 2017 and 2016 would have been as follows:

A positive number below indicates a decrease in loss and increase in the other comprehensive income where the equity prices increase by 10%. All other variables are held constant.

	Loss for the year		Other comprehensive income	
	31 Dec. 2017 KD	31 Dec. 2016 KD	31 Dec. 2017 KD	31 Dec. 2016 KD
Investments at fair value through profit or loss	77,448	79,031	-	-
Available for sale investments	-	-	20,170	31,639
	77,448	79,031	20,170	31,639

For a 10% decrease in the equity prices, there would be an equal and opposite impact on the other comprehensive income and the profit for the year, and balances shown above would be negative.

25.2 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Group's credit policy and exposure to credit risk is monitored on an ongoing basis. The Group seeks to avoid undue concentrations of risks with individuals or groups of customers in specific locations or business through diversification of its activities.

The Group's exposure to credit risk is limited to the carrying amounts of financial assets recognised at the reporting date, as summarized below:

	31 Dec. 2017 KD	31 Dec. 2016 KD
Cash and cash equivalents	2,488,937	4,240,051
Investment at fair value through profit or loss	1,488,323	1,466,408
Accounts receivable and other assets	3,874,517	5,348,395
Available for sale investments	4,668,087	4,283,242
Investment in bonds	100,000	100,000
Financing receivables	183,811	-
	12,803,675	15,438,096

Notes to the consolidated financial statements (continued)

25 Risk management objectives and policies (continued)

25.2 Credit risk (continued)

Except for certain accounts receivable and other assets and available for sale investments as stated in note 13 and 14 respectively, none of the above financial assets are past due or impaired. The Group continuously monitors defaults of customers and other counter parties, identified either individually or by Group, and incorporate this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Group's policy is to deal only with creditworthy counterparties. The Group's management considers that all the above financial assets that are neither past due nor impaired for each of the reporting dates under review are of good credit quality.

None of the Group's financial assets are secured by collateral or other credit enhancements.

The credit risk for cash and bank balances and short term deposits is considered negligible, since the counterparties are reputable financial institutions with high credit quality. Information on other significant concentrations of credit risk is set out in note 25.3

25.3 Concentration of assets

The distribution of financial assets and financial liabilities by geographic region for 2017 and 2016 is as follows:

	Kuwait KD	GCC KD	Asia & Africa KD	Europe KD	USA KD	Total KD
At 31 December 2017						
Cash and cash equivalents	2,310,956	140,679	36,321	981	-	2,488,937
Investments at fair value through profit or loss	1,338,635	149,688	-	-	-	1,488,323
Accounts receivable and other assets	835,895	1,900,803	1,020,679	117,140	-	3,874,517
Available for sale investments	3,058,305	455,000	779,073	13,107	362,602	4,668,087
Investment in bonds	100,000	-	-	-	-	100,000
Financing receivables	183,811	-	-	-	-	183,811
	7,827,602	2,646,170	1,836,073	131,228	362,602	12,803,675
Accounts payable and other liabilities	4,817,573	4,190,001	-	-	-	9,007,574
Murabaha payables	3,202,976	-	-	-	-	3,202,976
Bonds	900,000	-	-	-	-	900,000
	8,920,549	4,190,001	-	-	-	13,110,550
At 31 December 2016						
Cash and cash equivalents	1,087,735	2,940,739	209,873	1,704	-	4,240,051
Investments at fair value through profit or loss	1,308,647	157,761	-	-	-	1,466,408
Accounts receivable and other assets	1,938,483	2,262,709	1,028,353	118,850	-	5,348,395
Available for sale investments	2,953,848	455,000	588,549	23,984	261,861	4,283,242
Investment in bonds	100,000	-	-	-	-	100,000
	7,388,713	5,816,209	1,826,775	144,538	261,861	15,438,096
Accounts payable and other liabilities	4,105,195	6,329,339	-	-	-	10,434,534
Murabaha payables	3,606,871	-	-	-	-	3,606,871
Bonds	900,000	-	-	-	-	900,000
	8,612,066	6,329,339	-	-	-	14,941,405

Notes to the consolidated financial statements (continued)

25 Risk management objectives and policies (continued)

25.4 Liquidity risk

Liquidity risk is the risk that the Group will be unable to meet its liabilities when they fall due. To limit this risk, management has arranged diversified funding sources, manages assets with liquidity in mind, and monitors liquidity on a regular basis.

The table below summarises the maturity profile of the Group's assets and liabilities. Except for investments carried at fair value through profit or loss, investment in associates, available for sale investments and investment properties, the maturities of assets and liabilities have been determined on the basis of the remaining period from the reporting date to the contractual maturity date. The maturity profile for investments carried at fair value through profit or loss, investment in associates, available for sale investments and investment properties is determined based on management's estimate of liquidation of those investments.

Maturity profile of all assets and liabilities at 31 December 2017 and 2016:

	1 year KD	1 -5 years KD	Over 5 years KD	Total KD
At 31 December 2017				
ASSETS				
Cash and cash equivalents	2,488,937	-	-	2,488,937
Investments at fair value through profit or loss	1,488,323	-	-	1,488,323
Accounts receivable and other assets	3,874,517	-	-	3,874,517
Investment in bonds	-	100,000	-	100,000
Available for sale investments	-	4,668,087	-	4,668,087
Investment in associates	-	4,948,756	-	4,948,756
Investment properties	-	12,185,134	-	12,185,134
Financing receivables	82,789	101,022	-	183,811
Property and equipment	-	97,037	-	97,037
	7,934,566	22,100,036	-	30,034,602
LIABILITIES				
Accounts payable and other liabilities	9,007,574	-	-	9,007,574

Notes to the consolidated financial statements (continued)

25 Risk management objectives and policies (continued)

25.4 Liquidity risk (continued)

The contractual maturity of financial liabilities based on undiscounted cash flows are as follows:

	On demand /up to 1 month KD	1-3 Months KD	3-12 months KD	Over 1 Year KD	Total KD
31 December 2017					
Financial liabilities					
Accounts payable and other liabilities	68,899	-	8,938,675	-	9,007,574
Murabaha payables	-	-	596,004	2,920,625	3,516,629
Bonds	-	-	-	900,000	900,000
Employees' end of service indemnity	-	-	-	408,038	408,038
	68,899	-	9,534,679	4,228,663	13,832,241
31 December 2016					
Financial liabilities					
Accounts payable and other liabilities	68,899	4,608	10,361,027	-	10,434,534
Murabaha payables	47,000	-	553,000	3,530,253	4,130,253
Bonds	-	-	-	900,000	900,000
Employees' end of service indemnity	-	-	-	497,596	497,596
	115,899	4,608	10,914,027	4,927,849	15,962,383

26 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the costs of capital.

The Group manages the capital structure and makes adjustments in the light of changes in economic conditions and risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, buy back shares, issue new shares or sell assets to reduce debt.

There were no changes in the Group's approach to capital management during the year as compared to the previous year. The capital structure of the Group consists of the following:

	31 Dec. 2017 KD	31 Dec. 2016 KD
Murabaha payables	3,202,976	3,606,871
Bonds	900,000	900,000
Less: Cash and cash equivalents	(2,488,937)	(4,240,051)
Net debt	1,614,039	266,820
Total equity	16,516,014	17,967,145
Total Capital	18,130,053	18,233,965

Notes to the consolidated financial statements (continued)

26 Capital risk management (continued)

In order to maintain or adjust the capital structure, the Group monitors capital on the basis of gearing ratio. The ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings less cash and cash equivalents. Total capital is calculated as equity as shown in the consolidated statement of financial position plus net debt.

	31 Dec. 2017 KD	31 Dec. 2016 KD
Net debt	1,614,039	266,820
Total capital	18,130,053	18,233,965
Gearing ratio	8.90%	1.46%

27 Assets under management

The Group manages mutual funds, portfolios on behalf of its major shareholders, other related parties and third parties, and maintains securities in fiduciary accounts which are not reflected in the Group's statement of financial position. Assets under management at 31 December 2017 amounted to KD47,934,791 (31 December 2016: KD50,480,335 of which assets managed on behalf of its related parties amounted to KD Nil (31 December 2016: KD Nil)).

During the year, the Group received an amount of KD437,126 in its bank account which relates to fiduciary accounts. This account is included in cash and cash equivalents and accounts payable and other liabilities as of 31 December 2017 (note 11 and 17).

During the year total fees earned by the Group from assets under management amounted to KD78,213 (2016: KD75,147)

28 General assembly of shareholders and dividend

The Parent Company's Board of Directors proposed not to distribute any dividend for the year ended 31 December 2017. This proposal is subject to the approval of the general assembly of the shareholders. No dividends were distributed for the year ended 31 December 2016.

The annual consolidated financial statements for the year ended 31 December 2016 were authorised for issuance by the Parent Company's Board of Directors on 27 March 2017 and approved by the shareholders at the Annual General Meeting held on 18 July 2017.

29 Capital commitment

As of 31 December 2017, the Group has capital commitments with regard to its investment properties under development amounting to KD Nil (31 December 2016: KD90,000).

30 Comparative figures

Certain comparative figures have been reclassified to conform to current year presentation of the consolidated financial statements. Such reclassification did not affect previously reported total assets and equity or net results for the year reported.
